

BUZZ ULTRA DF™ **TEBUCONAZOLE 75 DF**

Controls Leaf Spot, Powdery Mildew, Rust, White Rot and Other Diseases

ACTIVE INGREDIENT:

Tebuconazole, a-[2-(4-chlorophenyl)ethyl] a-(1, 1 - dimethylethyl) -1H-1,2,4-triazole -1- ethanol75%

BUZZ ULTRA DF™ is a unique formulation of Tebuconazole 75 DF with a 2 - 4 average micron particle size. Tebuconazole is a systemic fungicide that is absorbed and trans-located by the plant.*

- BUZZ ULTRA DF is a cost effective, protective, curative and eradivative multipurpose fungicide which has broad spectrum control for a number of diseases.
- BUZZ ULTRA DF delivers superior performance in terms of particle size, dispersion and provides excellent coverage.
- BUZZ ULTRA DF is a sterol demethylation inhibitor (DMI) fungicide (Group 3). It may be applied in a tank-mix or alternated (every other spray application) with a non-DMI fungicide as a resistance management strategy.
- BUZZ ULTRA DF exhibits excellent rain-fast characteristics.

BUZZ ULTRA DF
